I. Knowledge To Money Club Klubnap

2025. március 11-én Budapesten kerül megrendezésre a HEPA Magyar Exportfejlesztési Ügynökség Nonprofit Zrt., az Enterprise Europe Network, és a Nemzeti Kutatási, Fejlesztési és Innovációs Hivatal társszervezésében a *Knowledge To Money Club (K2M.Club) Klubnap*, melynek célja a magyar pályázók sikerességének javítása a Horizon Europe EIC Accelerator programban.

A Knowledge 2 Money Club egy olyan non-profit kezdeményezés, melyet rendszeresen, negyedévente rendeznek budapesti helyszíneken. A hazai vállalkozások többsége küszködik a nemzetközi piacralépéshez és forrásbevonáshoz szükséges tudás megszerzésével és alkalmazásával, a Knowledge 2 Money Club rendezvényeinek célja pedig a pályázók sikerességének drasztikus javítása. A rendezvényen való részvétel díjmentes, azonban előzetes regisztrációhoz kötött. A rendezvényen való részvételi szándékát kérjük, hogy az esemény honlapján található űrlap kitöltésével jelezze felénk 2025. március 11. reggel 10 óráig. Kérdéseikkel keressék Dervalics Ákost a +36 30 378 4396 telefonszámon.

Időpont: **2025. március 11., 13:30-16:30**

Helyszín: **1027 Budapest, 15-23 Kacska utca**

Az eseményről további információkat a [Linken](#) olvashatnak.

II. Call for Papers: Global Water Security Issue 7 – Water and Gender: Towards Equality in Rights and Opportunities

The United Nations Educational, Scientific and Cultural Organisation (UNESCO) Intergovernmental Hydrological Programme (IHP) and the International Centre for Water Security and Sustainable Management (i-WSSM), under the auspices of UNESCO, cordially invite research scientists, practitioners, and experts from international organisations, government agencies, non-profit institutions, and the private sector to submit proposals/abstracts for the upcoming Issue 7 of the Global Water Security Issues (GWSI) Series.

Planned for publication in 2026-2027, Issue 7 will focus on the theme “Water and Gender”, with a particular emphasis on women’s rights and equal opportunities in the context of water resources access and management.

Proposals (abstracts) should be submitted using the proposal template. Selected authors will be invited to further develop their submissions into full draft chapters. These chapters, that shall be original, high-quality research or policy analysis not previously published elsewhere, will undergo a rigorous peer-review process, with only accepted submissions included in GWSI Issue 7.

Please send the completed Proposal Template to IWRA Project Officer, Raya Marina-Stephan: r.stephan@iwra.org.

Submission deadline: **28 February 2025**

For more information about the call, please click [Here](#).

III. Science Communication Beyond Tomorrow III

In the third edition of this forward-looking conference, participants will explore how AI has evolved from a 'wow' to a 'how' and dive into the critical 'what's next?' questions.

With keynote speakers, interactive panel discussions, and practical tips, this event will help participants to stay ahead in the fast-evolving world of AI and science and public communication.

Please note, the room capacity for the event has been reached and registration for in-person attendance is now closed. New registrations will be put on a waiting list. However, interested parties are invited to watch the [livestream](#) of the morning panel discussions on 4 March, starting at 10.00.

Date: **4 March 2025, 10:00 - 15:30 (CET)**

Venue: Brussels, Belgium (+ **livestreamed**)

You may read more about the Conference [Here](#).

IV. Call for nominations of experts for second global assessment of biodiversity and ecosystem services

In line with decision IPBES-11/1 and the procedures for the preparation of IPBES deliverables, the Multidisciplinary Expert Panel invites qualified experts to apply, and Governments and relevant organizations to nominate experts to participate in the second global assessment.

The overall objective of the second IPBES global assessment of biodiversity and ecosystem services is to assess relevant knowledge that has become available since the publication in 2019 of *The Global Assessment Report on Biodiversity and Ecosystem Services* and to assess progress towards achieving the goals of sustainability and living in harmony with nature. Moreover, it will strengthen the science-policy interface on biodiversity and nature’s contributions to people on a range of spatial scales, from the local to the global, by providing the knowledge and the policy support tools needed for informed decision-making.

Experts should have experience in the conduct of regional and global analyses relating to nature and nature's contributions to people in terrestrial, inland water, coastal and marine ecosystems. They should have expertise relevant to the global assessment of biodiversity and ecosystem services in one or more disciplines within natural science, social science or humanities. IPBES is, in particular, seeking experts with an interdisciplinary background.

Application deadline: **28 March 2025**

For more information about the call, eligibility and nomination process, please click [Here](#).

V. Data Repository Investment Value & Relevance

The World Data System (WDS) and its Scientific Committee are launching a study to identify the value-added benefits of data repositories, in order to address the WDS Action Plan Objective #2 to advance value narratives for WDS members. The ultimate goal of this project is to demonstrate the value of repositories in serving needs of researchers, funders, policy-makers and other stakeholders. To this end, organisers chose the Delphi Study method to identify the top 10 value-added benefits that data repositories provide to the international research ecosystem, now and into the next decade. The research team is comprised of World Data System – International Technology Office (WDS-ITO) staff and WDS Scientific Committee members.

Individuals that identify as one of the target groups (funders, publishers, researchers, policy makers, and digital infrastructure/service providers) are asked to participate as key stakeholders of data repositories. Participation in this project is entirely voluntary.

Round 1 is expected to take the longest, as it will be the first exposure to the attribute list that has been compiled. We anticipate no more than an hour of effort. The subsequent rounds are estimated to take less than 30 minutes each. All disseminated results will be anonymized.

Due deadline: **12 March 2025**

You may read about the survey [Here](#).

VI. Open Access to JRC Research Infrastructures

The European Commission's Joint Research Centre (JRC) opens its scientific laboratories and facilities to people working in academia and research organisations, industry, small and medium enterprises (SMEs), and more in general to the public and private sector.

The JRC offers access to its non-nuclear facilities to researchers and scientists from EU Member States and countries associated to the EU Research Programme Horizon Europe. For nuclear facilities, the JRC opens to EU Member States and to countries associated to the Euratom Research Programme.

The relevance-driven access is exclusively dependent on scientific and socio-economic relevance at European level. It is based on a peer-review selection process following a call for proposals. Projects accessing JRC facilities under the relevance-driven mode are only charged the additional costs associated to such access. Market-driven access is granted upon payment of a fee covering the full access costs of the JRC, and it is mainly targeted to industry.

In total, there are 13 open calls at the moment. Please note that the application deadlines may differ.

For more information about the calls, please click [Here](#).

VII. S|B Annual Conference: Watch the recordings & read news coverage

One week after the Annual Network Conference, S|B is taking a moment to look back at the key discussions that shaped the event. From the future of Framework Programme 10 to Europe's competitiveness in strategic technologies, global health investment, and the challenges of AI adoption, the conversations were timely and impactful.

For those who couldn't join or want to revisit the discussions:

- Rewatch the sessions on [S|B's YouTube channel](#).
- Read conference-related news on [S|B's website](#).

VIII. Enterprise Europe Network – K+F partnerkereső profilok

A Magyar Exportfejlesztési Ügynökség jóvoltából az alábbiakban megtekinthetik az [Enterprise Europe Network](#) üzleti és innovációs partnerkereső adatbázisból a következő több szakterületet lefedő K+F partnerkereső profilokat. Az [adatbázis](#) naponta frissül, így, ha az alábbiak között nem talál a szakterületének megfelelőt, abban az esetben böngéssze az adatbázist, szűkítse a keresést a megfelelő kulcsszavakkal. Amennyiben kapcsolatba szeretne lépni egy-egy profil tulajdonosával, kérem jelezze a HEPA munkatársa, Szabó Eszter Anna vezető tanácsadó számára a szabo.eszter@hepa.hu e-mail címen.

- [A Turkish Company specializing in Health Technologies seeks project partners to collaborate on international programs \(Eureka, Eurostars etc.\)](#) (RDRTR20250213024)

A Turkish SME is a health technology innovator focusing on artificial intelligence (AI) solutions for medical imaging to reduce interpretation delays among physicians, improve diagnostic precision, and enhance patient well-being. It is seeking project partners to collaborate on international programs (Eureka, Eurostars, etc.).

- [EUROSTARS partner search - Partner needed to design chemical gas sensors for VOC-based breast cancer detection in urine](#) (RDRES20250206004)

Barcelona-based startup that has developed a urine-based breast cancer test with a sensitivity of 88.42% is looking for partners for the next Eurostars call. The proposal in preparation is aimed at re-designing and optimizing chemical gas sensors to detect volatile organic compounds (VOCs) as biomarkers for breast cancer in urine.

- [Partner search for Eurostar Call 13 March 25: Italian EdTech startup seeks a partner to co-develop an AI-powered training platform combining AI and voice interaction expertise for language learning, corporate training or educational solutions](#) (RDRIT20250213007)

An Italian EdTech startup created an AI-powered language learning platform enabling real-time and natural conversations in five languages. It offers adaptive content, pronunciation coaching and personalized learning paths using advanced speech recognition and machine learning. With 15,000+ users, the sme is expanding into hybrid learning with human tutors and collaborating with schools. They seeks partners with domain expertise to co-develop and scale AI-driven training solutions.

- [Danish Spin-Out Pioneering Bio-Sensor Technology for Adaptive Learning Environments Looking for Higher Education Institutions to engage in Erasmus+ project cooperation](#) (RDRDK20250206029)

Danish Spin-Out, founded in 2021, develops cutting-edge bio-sensor technology to enhance media analysis and adaptive learning environments. With experience in EU funding programs, the company seeks higher education partners for an Erasmus+ KA220-HED project. The initiative aims to use sensor-based data to adapt learning spaces in real-time, improving engagement and well-being. Partners with expertise in behavioural research and education quality are sought.

- [Eurostars Consortium Coordinator from Turkey is Looking for a Partner to Develop Polymer Composites as an Alternative to Carbon-based Materials for Eurostars MAR 2025 Call \(RDRTR20250206020\)](#)

This project focuses on developing new-generation polymer nanocomposites as alternatives to carbon-based materials, widely used for their durability and low weight in sectors like automotive and aerospace. By incorporating nanoparticle-sized fillers into the polymer matrix, the project aims to enhance mechanical properties, improve thermal stability, electrical conductivity, and chemical resistance, while reducing energy consumption.

- [Slovak coordinator is looking for skilled project partners to participate in the call HADEA/2024/OP/0014 \(RDRSK20250206012\)](#)

An experienced software company is looking for a partner to build a consortium to participate in the call HADEA/2024/OP/0014. This is a call for 4.5 Mio Euro for 36 Months. The coordinator has the technical expertise to provide services being an expert in the field of healthcare data interoperability but looking for a partner with expertise to build a support centre only cross-country / EU level, which may fit all formal requirements of the call as a member of the consortium.

IX. Open calls and applications

Az alábbiakban tájékoztatást adunk azon nyitott eseményekről és pályázatokról, melyek az előző hírlevelekben megjelentek.
